

GRAND RAPIDS TRIBUNE.

VOL. XXXII, NO. 1

Grand Rapids, Wisconsin, Wednesday, May 3, 1905.

DRUMB & SUTON, Publishers.

A STITCH IN TIME.

Often saves MORE than nine.
If you don't believe it, just let that little clip in your new trousers go for a while, and see where you're at.
But now, about lumber:
Haven't you realized, when you looked over the place and noticed that things were looking very much out of repair, that a little good lumber, lath, or shingles, or plaster, or cement, (in other words, just that "stitch in time")
Would have saved a lot of trouble?
Well, improve NOW; get busy.
Here's the lumber, ready and waiting.
And be sure to inquire about our Imperial Wall Plaster.

Kellogg Bros. Lumber Co.

Bound to the Circuit Court.
Abraham Karatzky had his hearing before Justice Brown on Thursday and the man was bound over to the circuit court. No witnesses were examined and the hearing was finished in a few minutes. Karatzky had apparently recovered from his morose fit and was willing to do all the talking necessary.

Daly has a large number of the latest style of wheels to select from which he is selling cheap. Look over his stock before you buy.

NEW LODGES.

Beavers and Beaver Queens Perfect Organization in This City.

The lodge of the Beavers was organized in this city on Friday evening, and there were forty-seven members present. The lodge was organized under the supervision of District Deputy Woodworth and Bucks. The following officers were elected:
W. C.—Dr. D. A. Teller.
W. V. C.—A. D. Hill.
W. G.—J. C. Bell.
W. Secy.—C. E. Kruger.
W. Treas.—H. H. Yoss.
W. P. C.—G. W. Parnell.
W. H.—J. W. Hancock.
W. F.—J. C. Willard.
Trustees—W. H. Reeves, A. C. Otto and G. W. Loyens.
Physicians—Drs. Houghton and Rockwell.

The charter was voted upon for a period of 90 days and an effort will be made to increase the membership to 100 during that time. The terms to new charter members will be the same as those who have already joined the order. C. E. Kruger was appointed the local deputy.

The Beaver Queens organized at Natwicks hall on Saturday evening under the supervision of the queen deputy, Mrs. C. M. Barton of Neillsville with a high class membership which speaks well for the future of the lodge. Complete ritual work will be exemplified next Friday evening at a special meeting which has been called by the deputy. The following are a list of the officers as elected at the first meeting:
Most W. Q.—Mrs. Muir.
P. W. Q.—Katherine Smith.
W. P.—Mrs. Lyon.
W. P.—Mrs. Dixon.
W. Secy.—Mrs. R. R. Harvey.
W. Treas.—Mrs. Reeves.
Trustees—Mrs. Mend, Mrs. Arms, Mrs. G. W. Mason.
Guards—Miss Halvorsen, Miss Nissen and Miss White.

Teachers Engaged.

The following teachers have accepted positions in the public schools for the ensuing year:
High School, Mr. L. O. Hubbard, Mr. Chas. W. Schwab, Miss Mattie Love, Miss Mary Bratney, Miss Florence Warner and Miss Lillian Gaskill.
Music, Miss Laura Reeves.
Kindergarten, Miss Lydia Bundy, Miss Franklin Worthington, Miss Mathilda Brugg and Miss Belle Quinn.
Grades, Miss Anna Hutz, Miss Edith Perkins, Miss Celia Burr, Miss Rose Taylor and Miss Mary Reilly.

Dr. Carter.

Dr. Carter coming to Grand Rapids, Wednesday, May 17, 1 day only at Witter House. Introducing for the first in the city The New Liquid Air System for painless extracting of teeth. Nothing like it ever known before. Absolutely painless and safe, and especially adapted for children. Attracts the attention of many prominent people through the state. Free trial hours 9 to 10 and 1 to 2.
At Babcock, May 29; at Almond, May 18; at Stevens Point, 20, 21 and 22.

No M. W. A. Picnic.

Wausau News.—According to the Grand Rapids Tribune, the big M. W. A. picnic of the North Wisconsin district, which was to have been held in that city in August, has been declared off, or practically so, the committee having discovered that it would cost nearly \$2,000 to conduct it on the scale originally intended. A committee was sent to Merrill to investigate and reported that as a money making venture the picnic could not be called a success, that the outside attendance reached only about 500, and for this reason did not feel like calling on the business men to help the project.

This is not the proper "convention city" spirit. While it is desirable to attract big crowds, a city that has made a bid for an affair of this kind, should overlook the matter of dollars and cents, remembering only that it is the best, and leave nothing undone that would add to the pleasure of their invited guests. Prepare for the occasion, and if the guests fail to put in an appearance, so much the worse for the guests.

We think this committee has looked at the thing in the wrong light, has underestimated the hospitality of Grand Rapids people and feel that if the matter is properly presented to them Grand Rapids business men will do as the Wausau, Merrill, Ashland and other places did, and will render the necessary financial assistance to make the picnic the success it has been in other places.

Information Wanted.

One of our citizens has received a letter from Germany asking if any information can be gleaned in this locality concerning the whereabouts of one Edward Beyer. When Beyer was last heard of by his friends he was employed in Chicago, and since that time they are under the impression that he has been in the locality, although nothing definite can be learned of his whereabouts. Should any of the readers of the Tribune know where Mr. Beyer is now located they will confer a favor on the man's friends by communicating with this paper and his friends will be apprised of the facts in the case.

Lyon-Edwards.

R. W. Lyons and Miss Mayme Edwards were married on Thursday morning at the home of the bride's parents, Rev. Fred Staff performing the ceremony. Miss Blanche Harding acted as bridesmaid and Edward McCarthy was best man.

Both the young people are well and favorably known in this city, the bride being the daughter of Mr. and Mrs. Henry Edwards, and the groom is the son of Mr. R. W. Lyons, and is engaged as driver for one of the rural routes out of this city.

They left on Thursday noon for the north on a short wedding tour, after which they will make their home in this city. The Tribune unites with their many friends in extending the warmest of congratulations and wishing them a long and happy wedded life.

A Chronic Cough Will Develop

into serious lung trouble. The throat is irritated and pneumonia, bronchitis, asthma, or consumption is bound to follow. Use Gloria Lung Balsam and the danger is banished. Best for children. Sold by Daly Drug & Jewelry Co.

COUNCIL MEETING.

Interesting Session of the City Fathers Held at City Hall Last Night.

The council met in regular session at the city hall last night with Mayor Nash presiding and a quorum of aldermen present. There were several petitions in for improvements about the city, among which were the establishment of an are lamp on Court House street near the Lincoln high school, a sewer on Daly street, and a sewer on the city street. All of the matters were considered favorably by the council, and in time will no doubt be granted.

Alderman Mulroy, as chairman of the street committee brought up the matter of naming the streets about the city and numbering the houses. He was looking for information about the matter, as he was in doubt as to whether it would be better to put the names of the streets on the corners of the houses or to put up posts and have the names put on proper signs. Nothing definite was done in the matter.

Peter McCamley, superintendent of poor, made his report for the past year, which showed that \$20,200 had been expended by him for persons who were in want. Of this amount \$22,82 was chargeable to Wood county, leaving \$20,48 as the expense to the city. Mr. McCamley was elected to fill the position for the coming year.

The matter of street commissioners for the ensuing year was brought up and it was decided to employ the same system as had been done last year, that is to have John Henry attend to and supervise the work on the east side and Mike Sierck have charge of the west side work.

The work of publishing the land for another year at \$30 a month to furnish concerts on the street was discussed at some length. The music last year was not good enough to suit some of the members of the council but it was decided to give the boys another trial and if the music was not satisfactory later in the season to cut off the appropriation. The councilmen seem to lose sight of the fact that the money appropriated is for the purpose of improving the hotel, and the paper the hand the more they are in need of improvement. If we had more of this kind of expenditure it would be an encouragement to the boys to support them without any donation from the city.

Alderman Pankus, on behalf of the cemetery association, introduced a resolution recommending that the sum of \$50 be appropriated for the purpose of fixing up the potters field in the cemetery. This elicited considerable discussion. Alderman Mulroy thought that \$50 was quite a bunch of money to throw into such a wild scheme as this, while Alderman Billings was certain that the association would not use all of the money for the purpose they had asked for, and that the balance would be used by them to fix up their own lots, and he was in favor of having the work done by the city. After some discussion the money was appropriated with only two dissenting votes.

Alderman Porter and Getzlaff spoke on the advisability of continuing the work of fixing up the fair grounds that was commenced last year, and after some discussion as to the best methods to be employed the matter was left to Mr. Porter to see that it was properly carried out.

The G. A. R. post of this city asked that the city appropriate the sum of \$30 to assist the post in the work to be done on Decoration Day, which was granted without an opposing vote.

The city attorney reported on the bill of Louis Schenck for \$250 for damages on account of war from a ditch near his place and recommended that the same be not allowed. There being no further business the council adjourned.

Home Team Gets First Game.

The first baseball game of the season was played at Nekeosha on Sunday, and the game was won by the home team. The game was against the team from Nekeosha, and the score stood 12 to 4. The weather is a trifle uncertain as yet for ball games, but the game of Sunday was favored with bright sunshine, although the fore part of the day was a trifle chilly. The spectators said that Nekeosha has not as good a team as usual this year, but it is possible that they may develop more speed as the season advances. The boys expect to play a return game sometime in the near future.

Don't Forget the Date.

The date of the next stock and cattle fair to be held in this city will be on Tuesday, May 24th, and farmers and others should keep the date in mind and be on hand if they have anything that they want to dispose of in the line of stock or cattle.

The fair next week will be held on the east side and it is expected that there will be a large number of buyers present so that a fairly good price can be realized by those who have anything to sell.

Social a Success.

The Experience Social given by the ladies of the Catholic church on Thursday evening was a great success both socially and financially. They managed to take in \$52 by the social, which they consider very good for one evening's work.

Five Persons Cured.

Mr. Jacob Baatz, 422 S. 7th St., Newark, N. J., writes: Gloria Tonic does me of rheumatism, also five of my friends. Sold by Daly Drug & Jewelry Co.

Challenges the World.

New York Herald.—Harvey Parker returned Saturday from Boston where he has been in an effort to match Fred Beall against either Tom Jenkins, catch as catch can champion of the United States, or Clarence Bouldin, the Cuban wonder, who has been claiming the middleweight championship.

Parker says both tried to side step Beall. Jenkins fears to meet Beall, although he weighs 200 pounds, while Beall scales less than 160. Bouldin would consent to a handicap match only, in which Beall is to throw him twice in an hour. Parker refused to make the match on those terms, but says he will communicate with Beall, and if he agrees to meet Bouldin in a handicap contest a match will be made. Parker says it would be the easiest kind of a match between Beall and Jenkins, as Jenkins wouldn't have a ghost of a show against the sturdy Wisconsin man.

Parker is trying to get a match for Beall with John Panning, who complains of an injured knee. As he is continually challenging Hackenschmidt the famous Russian, to a contest, Parker thinks the injured knee exists more in Panning's mind than in the leg.

Parker says he is ready to back Beall against any wrestler in the country in an even contest, Getzlaff carried. He will match Beall against Jenkins for any amount of money.

Fire at Dexterville.

Word was received in this city Tuesday morning stating that the store and stock of goods belonging to William Downing & Son at Dexterville was destroyed by fire on Monday night.

The loss to Mr. Downing is estimated at \$2500 with an insurance of \$3000. The fire caught in the roof near the chimney and it was discovered early enough when it was discovered so that nothing could be done to stop it.

Since Mr. Downing burned out before he had been occupying a building belonging to the Illinois Lumber Co., which was an old structure and it is supposed that the chimney was defective and the fire started from this source.

Besides the building in which the store was located another building belonging to the Illinois Co. was burned out and the loss on this is estimated at about \$1000. This place was used by the company to store food and outfit, and their camp and logging outfit, owing to the lack of any fire apparatus it was impossible to do anything toward saving the place.

Woman's Club Officers.

The members of the Woman's Club held the last meeting of their year on Monday evening at the home of Mrs. W. F. Kellogg. The following officers were elected for the ensuing year:

Miss Carolyn Brice—President.
Mrs. Hambrecht—1st vice president.
Miss McKeith—2nd vice president.
Miss Michaels—Secretary.
Mrs. Daly—Treasurer.

The club reports a very profitable year just past, and they will continue the study of Shakespeare for the year to come. Several new members were taken in at the meeting on Monday night, so that the membership will be fully as large as last year.

Wausau Wins Honors.

At the declamatory contest held at Wausau on Friday evening Wausau won both first and second places. The first place was taken by Miss Mary McNeill and the second by Miss Edith Dwyer. These two were tied in points for first place, but the place was given to Miss McNeill on account of her having two first marks. Those who took part in the contest from this city were Misses Amanda Voyer and Rosa Wippenman. Those who went to Wausau from here report that they were entertained quite nicely while up there.

Attention Comrades G. A. R.

All members and comrades of the G. A. R. and all old veterans, are requested to meet at the G. A. R. hall on Sunday morning, May 7, 1905, at 9 a. m. to attend the Catholic church in a body at 10 a. m. of that day by invitation extended by Rev. Father Hegenroth. The commander earnestly requests all members and veterans to be present that we may show our appreciation of the kindness shown to us by Father Hegenroth. All members of the W. R. O. are also invited to meet at the G. A. R. hall that day and hour and attend service with us.

County Board Meets.

The county board met in special session at the court house on Tuesday. One of the first matters of business that was taken up was the election of a chairman for the ensuing year. The choice of the board fell to A. E. Germer of Dexterville, who received a majority of the votes on the first formal ballot. William Hooper was also in the race for the place, having received 11 votes on the formal ballot.

After the election of a chairman an adjournment was taken until this morning to allow the chairman to prepare a list of the standing committees for the coming year.

There is very little business before the board and it is not probable that the session of the board will last very long.

Two Stone Arch Bridges.

Notice is hereby given that the bridge commissioners of Price county, Wis., and the town board of Ogenia will meet at the bridge on fourth mile west of Ogenia, Wis., on May 10th next at 2 p. m. and accept open bids for building a stone arch bridge across the creek there, and one hour later at the bridge about 1/2 mile farther down same creek for building a stone arch bridge at that point, reserving the right to reject any and all bids. Specifications filed with undersigned. Ogenia, Wis., April 26, 1905. Erval Hammar, Town Clerk.

Advertised Letters.

Ladies.—Borman, Mrs. Nellie, Lawrence, Miss Caroline, Perry, Elmira, Gentlemen, Armstrong, Guy, Gauthier, Edwin, Jensen, Mr. Christ, Polk, Mr. George, Reed, Chas., Smith, Mr. Peter H., St. Clair, Mr. Roy, Wilson, Joney A. Co.

ON THE LIST.

Evidence that Grand Rapids High School is Among the Best of Them.

Superintendent Youker has received a letter from the University of Chicago, which would indicate that they consider the school at this point to be all right. Some discussion occurred some time ago because the Grand Rapids high school was not on the accredited list of the Chicago University, and the following letter will show that the school here is considered to be as good as any of them.

Chicago, April 27, 1905.
Principal H. S. Youker, Grand Rapids, Wis. My dear sir: At the last meeting of the Board of University Relations it was voted to place your high school upon our list of schools co-operating with the University of Chicago. I would like to explain that this means not only that graduates of your high school having to no certificate signed by the principal and teachers will be admitted without entrance examinations, but further:

(1) That you have the privilege of nominating candidates for a scholarship in the University from each of your graduating classes; (2) that you and your teachers are members of the Annual Educational Conference held at the University; (3) that you have the privilege of sending two top graduates of your school, one boy and one girl, to compete in the Annual at Deception contest at the university; the prize being a scholarship covering the tuition fees in the university for one year; (4) that you have the privilege of sending candidates to take part in the prize being a scholarship covering the tuition fees for one year; (5) that the members of your teaching staff will have the privilege of one-half tuition rate during the coming quarter; (6) that you will be entitled to receive many of the publications of the university.

I ought to say in explanation of my paragraph in regard to your nominating a candidate for a scholarship that at present the university has for this purpose only twenty-five such scholarships. Of course the number of schools in relation with us exceeds that. Nominations for scholarships are submitted to a committee and those that are available are assigned to the nominee who seems on the whole best recommended.

We are confident that the relation now established between your high school and the university will be of mutual advantage. We shall be glad to see you or any member of your staff at the university at any time, and of course we sincerely hope that the representatives of your high school will be found enrolled as students at the university.

Sincerely yours,
Nathaniel Butler

Circuit Court Monday.

The regular term of the circuit court convenes in this city on Monday next with Judge Charles M. Webb presiding. The calendar for this term is an unusually large one, there being thirty-four jury cases, including the criminal calendar, which contains ten.

The criminal cases are as follows:
State vs. John Lowry, who is charged with a fraudulent conveyance.
State vs. Ernest Schreiber, assault with intent to commit rape.
State vs. M. J. Johnson, conducting a house of ill fame.
State vs. Frank Boyanowski, petit larceny.
State vs. Curtis Gratton, bastardy.
State vs. Edward Severance, adultery.
State vs. Walter Rozelle, bastardy.
State vs. Peter Johnson, bastardy.
State vs. Matt Vank, bastardy.
State vs. Abraham Karatzky, murder.

Besides the criminal cases there are a large number of other cases on the calendar in the shape of civil suits, some of which are charges of venue from other counties.

First Band Concert.

If the weather is favorable the band will turn out next Thursday evening and give a concert on the Dixon house balcony. The following program has been prepared for the occasion:

March—S. D. L.
Medley—Indian Melod.
Overture—Post and Prentiss.
March—Soldiers to Grand.
Selection—Holy City.
Waltz—Pueron.
Intermezzo—Royal Fancies.
Medley—Swanee River.
March—Razin, Ill.

Two Stone Arch Bridges.

Notice is hereby given that the bridge commissioners of Price county, Wis., and the town board of Ogenia will meet at the bridge on fourth mile west of Ogenia, Wis., on May 10th next at 2 p. m. and accept open bids for building a stone arch bridge across the creek there, and one hour later at the bridge about 1/2 mile farther down same creek for building a stone arch bridge at that point, reserving the right to reject any and all bids. Specifications filed with undersigned. Ogenia, Wis., April 26, 1905. Erval Hammar, Town Clerk.

Advertised Letters.

Advertising Rates. For display matter at rate of cents an inch is charged. The columns in the Tribune are 24 inches long, making 3 one column advertisement cost \$2.40 for one insertion. All local notices, cards of thanks, resolutions of respect, and all notices of entertainment when an admission fee is charged will be published at 5 cents per line.

Editors throughout the state are going to indulge in periodical fits about that proposed steel by the men who want to build railroads on the Wisconsin river. The general impression among these editors seems to be that when the franchise is once granted that these men will own the river, the riparian rights, and most of the land along the river bank from the source of the stream to the mouth, and the worst of it is that they are going to get all of this for nothing, and thereby rob the people of the state of their just dues. If these same newspaper men would take the trouble to investigate the matter they would find that the land that is available for waterpower purposes is already owned by capitalists, and that the people of the state have no claim on it whatever. If a stream is navigable it becomes a public highway and is under the supervision of the government, but if it is not a navigable stream the people have no claim on it. Even if it is of sufficient size to operate boats on, that does not give the public any title to the land on either side of the stream, and this can be controlled the same as the land alongside of a public highway. So far as we can see, the new law would only affect the people who own water powers along the river, and if these persons do not object to the passage of the law we cannot see why the general public should worry any about the matter.

Four Biglow has had it rubbed into him in great shape since it has come to light that he is an embezzler. Every paper in the state and most of them outside have used him as a horrible example and written him up both from an editorial and a news standpoint. Some papers tried to blame all the trouble onto his son, and said that had he not tried to shield the young man he would not have had the trouble he did. When a man has to shield his son to the tune of \$1,000,000 to find better take an ax and go after the fellow. It was just a case of speculation. Had he won he would more than doubled his fortune and he would have continued to be a respected citizen, notwithstanding the fact that he was just as guilty as he is now, having lost. The only way to be respectable is win out every time, then you are all right.

Righting an Injustice.

A bill is pending in the legislature that is designed to correct in small measure the inequalities in the distribution of the revenues derived from railway taxation. The taxes derived from the railways are paid into the state treasury and railway property is exempt from local taxation. In Milwaukee the railways own millions of dollars worth of property that cannot be taxed by the municipality, as the railway terminals are taxed by the state. Not only are the terminals included in the property taxed by the state, but elevators and docks owned by railways are exempt from local taxation.

It is proposed that "real estate" not adjoining its tracks, stations or terminals, and real estate not necessarily used in operating the railroad, and docks for handling or storing coal or other merchandise, including the buildings and structures located thereon, not exclusively used by the railroad for handling or storing property necessary for its use in the operation of its road, and elevators for handling grain, with the real estate occupied by such elevators, docks and structures, is excepted (from railway property subject to state taxation exclusively) and shall be subject to taxation like the property of individuals. The purpose of the measure is to make real estate owned by railways and not necessarily a part of the railway system, subject to the same taxation as the property of individuals.

The bill has been reported for passage by the assembly committee on the assessment and collection of taxes. In justice to the communities in which railway companies own real estate that is not necessary to the conduct of their business, the legislature should give to the measure its approval. The plan of taxing railway property as a whole by the state and exempting it from local taxation works great hardship upon communities in which the railway companies have large real estate holdings. The tax companies share in the benefits of municipal government, they do not contribute to its support, owing to the policy of the state to single out railway property for state taxation exclusively. Property, then, that is not essentially a part of a railway system, should not be included in the property subject to state taxation. It should be subject to local taxation.

The system of taxing railway property in vogue in Wisconsin may be justified on the ground that it is expedient and offers the only method of arriving at an approximately true value of the property, but it works great hardship to the counties and

municipalities in which the most valuable part of railway property lies. Milwaukee county with millions of dollars worth of railway property is unable to levy a cent of taxes upon it, the taxes derived from its going to the state treasury and relieving other sections of the state from state taxation. There is no excuse to offer, however for virtually ranking all property owned by the railway regardless of its uses, exempt from local taxation. The legislature should draw the line so that when the railways step outside their immediate business, the property used by them for such purpose shall be treated the same as property owned by other corporations or by persons engaged in the same business. Milwaukee News.

NORMAL SCHOOL NOTES.

Twenty-nine students were doing practice work during the past week, but the number will be considerably increased from now on.

Miss Flo Berg visited at Monday. Miss Berg finished the course in February and will receive her diploma in June. She has engaged a school for next year.

The class in Agriculture have been studying practical methods of improving the soil.

In practice work students are required to write out a plan of work for each recitation. This plan includes a list of the subjects to be covered, and then the student presents the lesson as outlined. This work helps the student to gain confidence and makes the work of actual teaching easy.

We have often noted about the expense of attending the County Normal. No tuition is charged residents of Wood county. No books are purchased by the student. The school runs all necessary books at a cost of but 25 cents per month. This is the only expense connected with the school.

Miss Lucy Chasit of '04 has been home on a vacation and of course visited as usual here.

Miss Bertha Akay of '04, who is teaching in the town of Auburndale, was home for two weeks on account of sickness, but is now able to go on with her work.

All graduates of the school hold positions very easily. It is hoped that all will reach in Wood county, but calls come continually from other counties asking that teachers be furnished.

Following is the program of the Normal Literary society for May 3, 1905:

Roll call responded to by quotations from Langfellow.

By the School.
Recitation, "School Masters' Quere,"
Maud Mulack.

Original Story, "My First year of Teaching,"
Lillian Hopfner.

Essay, Laura Doy.
Instrumental music, Edith Brudersli.

Original Poem, Katie Bing.
Song, Arneum Varsho.

Recitation, "Edinburgh After the Battle of Pladen,"
Miss McLaugh.

Instrumental music, Miss Hazel.
Recitation, "Pilot's Story,"
Carrie Evans.

Reading, Belle LaVaque.
Recitation, "An Order for a Picture,"
Dora Thompson.

Question for discussion by the society. Resolve That birds are more valuable than harmful to the farmers.

Closing song by the society.

Dies Very Suddenly.

Charles Mullen of this city received word last week of the death of his brother's wife in St. Louis, which occurred very suddenly while the woman was walking along the street. The following from a St. Louis paper tells of the death of Mrs. Mullen:

The young woman who fell dead on the sidewalk at Broadway and Washington avenue with a baby in her arms yesterday afternoon was identified at 1:50 o'clock this morning as Mrs. Frank W. Mullen, wife of a Park avenue motorman, living at No. 3113 Locust street.

For nine hours the body lay at the morgue before it was identified. Mrs. Mullen was a victim of heart disease. She had gone to visit an aunt, Mrs. Moore of No. 807 Mound street, and was on her way home with her 6-week-old infant when the fatal attack came upon her.

Mr. Mullen, who is quite young, while his wife was only 19 years old, was at work and did not learn until midnight that his wife had failed to return home. He collapsed at the side of her body when he found her in the morgue.

While Miss Margaret O'Neill, a trained nurse of the Bethesda Home, knelt on the sidewalk, clutching the woman's hands and trying to revive her, Bellevue florists, Schnapper, Koster and Hennessy, with their clerks, held back a crowd of 4,000 persons, many of whom were women, and were anxious to get a look at the mother and babe.

The infant, a girl, was unhurt by the fall. The mother, even in death, seemed to shield her babe, according to witnesses. As the crowd thickened the little one, held in the arms of a sympathetic negro woman, smiled and cooed, unconscious of the mother's death.

In the great crowd that surrounded the woman and fought the big policemen of the Broadway squad, were several women who were weeping when it became known that the little mother of the blue-eyed baby girl had died.

Coming as it did just before closing time of the big stores in the vicinity, and when hundreds were on their way to the busy corner to catch street cars for home, the death created great excitement.

Frank Mullen is quite well known in this city, having formerly lived at Rudolph, and he and his wife visited in this city two years ago.

Spring Style.

If you want to be dressed in the latest style and have your suit made from goods that is there up to date, you should see M. J. Slattery the tailor, who can fit you out properly. He has received a large assortment of suitings that are really a pleasure to look at, and the male population of the city should not fail to look them over.

Plumbing and Heating.

Call on Parrell; we have two first class plumbers and will attend to your jobs promptly. All work guaranteed first class.

Told in a few Words.

Chas. Castleton, Cumberland, Wyo., says he had the worse cough a man ever had, and cured it in a few days with Dr. Warner's White Wine of Tar. R. L. Steh & Co.

When Your Doctor Tells You that you have lung trouble, and when your worst friends tell you that it is the forerunner of consumption, try Gloria Lung Balm. Best for children. Sold by Daly Drug & Jewelry Co.

Reports Good Progress.

A. W. Rich of Milwaukee was in the city on Thursday, and during his stay here he favored the Tribune office with a pleasant call. Mr. Rich is the man who was instrumental in establishing the colony of Jewish farmers at Arpin last winter. He had been at Arpin to see how his people had been getting along and he reported that there was every indication that they would prove successful in their efforts to make a success of farming. He has eight families there and he says that each one has got some land cleared up and will have some sort of crops in this season, so that all will get some kind of an income from their tract of land. Mr. Rich was after a stump puller for the use of the settlers, which is a very necessary implement when an attempt is made to clear a farm in such a heavily wooded section as was the country in the neighborhood of Arpin.

While Mr. Rich is a philanthropist in every sense of the word, he is not extolling any class to his fellow men. He is a man who started in at the bottom of the ladder and at one time lived in the virgin forest of Michigan, where he cut wood and helped his father to clear off the beginning of a farm, so that he realizes the benefit of making a man earn what he gets in preference to having it given to him. Mr. Rich states that half of the entire Jewish population of the United States is in the city of New York, where many of them live in a most deplorable condition, and he says that the colony scheme is being tried in various sections in order to get as many Jews out of the cities as possible. They hope by these means to not only thin out the number in the cities but to also get the people started into agriculture, which they consider is better for them than to have them all engage in mercantile pursuits.

Corner-Weeks.

Thursday evening at the residence of Rev. W. A. Peterson occurred the marriage of Frank Weeks to Miss Annie Corner, both of the town of Rudolph. They were attended by Louise Corner and Will Weeks, sister and brother of the bride and groom. Miss Corner is the oldest daughter of John Corner of the town of Rudolph, and a very popular young lady. The groom is a promising young man and has been a resident of the town for the past two years. They have gone to housekeeping on the east side.

Seventy Years Old.

Wonderful cure by Gloria Tonic. Mr. Abr. G. Croff, of Petersburg, Pa., writes: "I am 70 years old and am entirely cured of rheumatism thru that marvelous remedy, Gloria Tonic. I am entirely free from pain." Sold by Daly Drug & Jewelry Co.

Aggravation.

Wife-floury, what makes you in such a furious temper? Husband—I'm trying to read a Scotch dialect story. The plot is fearfully exciting, but I can't hurdle over the language fast enough to keep up with the hero!—Detroit Free Press.

Not Needed.

"Do you favor the whipping post for wife batters?"
"No," answered the woman who has been several times married. "The dust from the stove after is good enough for me."—Washington Star.

Out.

"He's out a good deal tonight, isn't he?"
"He was last night. I won a hundred from him."—Cleveland Plain Dealer.

NEIGHBORHOOD NOTES.

Marshfield News.—A pine bug is about the size and thickness of a chip and with its large eyes and long legs is not the beautiful creature that a butterfly is. Just at this season of the year they are very plentiful and while harmless they are not the most agreeable thing on the market to find crawling on one's person. Tuesday evening a woman was seen to suddenly stop on the crossing near Laumie's store. For an instant she stood in a listless attitude as the she heard footsteps approaching in a hurry. Then there was a scream, a rustling of skirts as she kicked first one way and then another as if to dislodge an intruder that had ventured above her shoe tops. It was a pine bug and as it kept up a busy walking and buzzing the poor woman guessed it could be nothing smaller than a flying squirrel. Finally after several frantic efforts she relieved herself of the tormenter and as it fell to the ground her courage returned and placing a duty foot on its crusty back ground it to earth.

Wausau News.—Mrs. L. S. Cohn and brother, Haskell Rick, are preparing to move to Cranmore, near Grand Rapids, to work their cranberry farm during the summer. They will put about five acres under cultivation this year for the production of cranberries. Last season their cranberry crop was a failure, due to a killing frost late in the season. If the climate conditions will be favorable, they estimate a cranberry yield of about 200 barrels.

Cranberry growing, prior to 12 years ago, was conducted on an extensive scale in the vicinity of Grand Rapids, and during harvest time the marshes were veritable villages, populated by the pickers who lived there in tents and temporarily constructed huts. In 1883 a big fire swept over the marshes and practically destroyed all the plants. This gave that industry a set back from which it has not yet recovered, so Mr. Rick states.

He related a cranberry fish story told him by a pioneer grower, who he said claimed that he had raised 700 barrels of berries on one acre of land, that the berries were so thick that the entire area was covered by a mass of berries two feet in depth. Mrs. Cohn and Mr. Rick intend to move to Cranmore in the early part of next month.

We understand that the Woodman picnic to be held at Grand Rapids has practically been called off, because of the necessary expense to make it a success. This is to be regretted, and the Rapids people should have considered the matter before going after it. There was something the same feeling in Merrill, and in fact the picnic was passed up one year, just on that account. The next year it was gathered in, the committee appointed and a good lot of hard work done. The result was that Merrill had the best Woodman picnic in the history of the district, and when it was all over, and the bills paid there was found a nice sum still in the treasury. Grand Rapids nor any other city can afford to let a gathering of this kind go by default after having accepted the responsibility, because the result would be disastrous. Brace up, neighbors, put your shoulders to the wheel, your hands in your pockets, and you can have a good picnic, and not be much money out in the long run, for with the railroad facilities the Rapids has, there would surely be a much larger crowd than Merrill had.—Merrill Star.

Local sportsmen have been promised a supply of "fingerling" brook trout to be delivered in this city next fall. Congressman Weiss promises to send a supply from the government hatchery at Marshalltown, Ia. The trout are quite different from the supply received from the Wisconsin hatcheries. As the name suggests, the fish are about the size of a man's finger when sent out from the hatchery and consequently they arrive at the proper size for fishing a year in advance of the state fry. The trout received from the state are not much larger than a good sized pin. The "fingerlings" are propagated at the government hatcheries where they are kept until they reach the size indicated by their name.—Pond du Lac Commonwealth.

E. F. Letts, of Grand Chute, has a very novel way of setting fence posts which has proven very satisfactory and which is being adopted generally by the neighboring farmers. A common fence post is used and is placed in a hole eighteen inches in diameter. Sand and small stones are then poured in the hole about the post and tramped down with trampers. A cement is then poured around the post until it forms a solid base about two feet from the ground. In three or four days the cement has hardened and the post is absolutely solid and it is said will last a life time.—Ore-cent.

An application for the pardon of John Walters will be made to Gov. La Follette. In March, 1904, Walters was convicted of arson and sentenced to the state prison for a term of four years. The offense of which he was convicted was the burning of a small oil house belonging to the Wisconsin Central at Junction City. Now there is a conviction in the minds of some of those who have become acquainted with the facts that Walters was not guilty and that the building was burned by others.—Stevens Point Journal.

News and Notes.
The population of Oklahoma and the Indian Territory is estimated as 1,200,000. The territories embrace 89,630 square miles, nearly 45,000,000 acres, the greater part of which is fertile and well watered.
A friend of the honeybee calls attention to the fact that it thrives in every state of the Union, and the total number of colonies is nearly three-quarters of a million.
The American Stock Growers' association, the new body resulting from a split in the National Live Stock association, is comprised mostly of cattlemen, the packers, horse and sheep breeders and others remaining with the old organization.

SPAFFORD'S Big May Sale

COMMENCING

THURSDAY, MAY 4, TO 13

DRUG DEPARTMENT.

Frank G. Bigelow, President of the City's Oldest Financial Institution, Confesses That He Embezzled Fortune and Lost It on Chicago Board of Trade.

But of late there are said to have been losses. A week or ten days ago T. D. Kneeland, a Chicago broker, went to Milwaukee, and coincident with his visit there were rumors of some heavy squeeze that Kneeland had suffered. It is said that Kneeland came to have some matters scratched out, and that he departed with any claims he might have had fully satisfied.

Stories of May wheat also have been rife. The persons who heretofore have hesitated to make any criticism of the flourisher have now remitted and voiced their recollection that Frank G. Higelow himself has always been a blunder. One enterprise in which he engaged that has been embroiled with costly litigation is the National Electric Company, and it was said that several other perfectly lo-

A VOICE FROM THE PULPIT.

Honors About Even.

Low Fields, the head of the "It Happened in Nordland" company, owns a fine collie dog which serves as watchman at his home on West Eighty-third street, New York. The other evening an inebriated neighbor of Mr. Fields, mistaking the comedian's hound for his own, was bitten by two collies on the left leg. The next morning he wrote:

"I demand \$1,600 for my injuries. I may suffer from hydrophobia."

Mr. Fields promptly wrote back:

"My dog is worth \$1,600. I demand that amount of money from you. My collie is suffering from alcoholism."

No suit against Mr. Fields has as yet been instituted in the Supreme Court of New York.

"My little girl had been suffering for two years from eczema, and during that time I could not get a night's sleep, as her ailment was very severe. I had tried so many remedies, deriving no benefit, I had given up all hope. But as a last resort I was persuaded to try Cuticura, and one box of the Ointment and two bottles of the Resolvent, together with the Soap, effected a permanent cure.—Mrs. I. D. Kingston, Ind. T. C."

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is a local one dreaded disease that science has been able to cure in all its stages, and that Catarrh, or Inflammation of the Prostate Gland, is a positive cure. It is known to the medical fraternity. Catarrh being a constitutional disease, first of all, it is not a local ailment, and it is not a venereal disease. It is a permanent, acting directly upon the blood and mucous surfaces of the system. Hall's Catarrh Destroyer, the foundation of the disease, and giving the patient relief by building up the constitutional strength, and the blood. It is a positive cure, and it is a match fail in its curative powers that they offer one hundred dollars reward for each case cured. Write for a free trial bottle and list of testimonials.

THE END OF THE GRIP

REACHED AFTER EIGHT YEARS OF COMPLICATED TROUBLES.

Defenses, Hiding Sounds in Head, Stomach Disorders, Fatigue of Heart and Delirium Overcome at Last.

Mr. Newman certainly had a very tough time with the grip, and it is no wonder that he thinks that the remedy that cured him can't be beat. His case shows how profoundly grip poisons the system and how completely it resists all ordinary efforts to eradicate it.

Few cases can be worse than Mr. Newman's for his head, heart and stomach troubles combined with great weakness. He recently said:

"The attack of grip which I had eight years ago left me in a very bad way. I was nearly dead and my head ached continually and was filled with hissing and roaring sounds. My heart fluttered and had regular running-away spells. My stomach was so sore that I could hardly bear a touch on that part of my body. I had a great deal of pain in the region of my liver and the doctor said that organ was enlarged. My kidneys ached so at times that I could hardly stand."

"Didn't you give up and go to bed?" he was asked.

"No, I simply wouldn't. My head and my liver ached dreadfully, but I obstinately refused myself about, kept growing worse and finally ran down to almost nothing."

"What did you do to get relief?"

"First I tried a doctor, but he did me no good. Then I took all kinds of advertised preparations but nothing proved helpful until I had used Dr. Williams' Pink Pills. As soon as I got them, I knew that I had at last hit the right remedy for my case. The very first box did more for me than anything else I had ever taken. They gave me relief right away and in three months they positively cured me. I think I was scarcely ever in better health in my life than I am at present."

Mr. William A. Newman is a well-known Canadian country farmer, living at Sagadah, Missouri. His case was a severe test for any remedy, but Dr. Williams' Pink Pills met every requirement. When the grip attacked him, he was in the grip of the grip, but Dr. Williams' Pink Pills drove it out of the system. They are sold by every druggist.

Not to Be Caught. Willie Backster—"I see a New York woman has just caught a burglar."

Bobbie Backster—"As you value your freedom, Willie, keep out of the burglar's business."

Rise Is Rapid. Lorenzo Alexis de Clairmont, chief of staff to President Cabrera of Guatemala, was a ticket taker in Denver twelve months ago.

bers increase with health or decrease with illness or malnutrition. The best tonic for increasing the red blood corpuscles and for keeping the system healthy is Dr. Williams' Pink Pills. This medicine has been on the market for over a third of a century and numbers its cures by the thousands.

THOMAS A. EDISON, the inventor, in unpinning out the problems of the future, gives first place to the necessity of fighting the bacteria which give us our diseases. Next to the actual bacteria of disease, the mosquitoes and flies are the most dangerous enemies of the human race. The mosquito with its bite injects into our veins malaria, yellow fever, and other fatal troubles. The fly, with its spongy feet, collects the invisible germs of disease and spreads them over our food and poisons us with typhoid, cholera and other plagues of the human race.

GOOD RED BLOOD OUR ARMAMUNION. The blood which flows through our veins and arteries should contain healthy red blood corpuscles which are capable of warding off the attack of the disease germs if they get into the system.

Dr. Pierce, the eminent physician of Buffalo, N. Y., says, "If each person will consider his system as an army of man which he controls as a general, and will see to its proper provisioning and that it has plenty of ammunition in the shape of good red blood, he will be able to overcome the enemy in the shape of the germs of disease." Every healthy person has five million red blood cells or corpuscles to every square millimeter of blood. The number of red blood corpuscles in the average human being is so great that it is almost incomprehensible. However, their num-

ber increase with health or decrease with illness or malnutrition. The best tonic for increasing the red blood corpuscles and for keeping the system healthy is Dr. Williams' Pink Pills. This medicine has been on the market for over a third of a century and numbers its cures by the thousands.

Helicographing a Butterfly.

Collectors that would succeed must be masters in resource. There was a Morpho beucia at the mouth of the Amazon river that had long baffled capture till one day an ingenious hunter used a mirror that sent flashes of the sun in every direction and the insect became inquisitive about being helicographed, and came within striking distance of the net. Jacob Doll, the famous old collector for the Brooklyn Natural History museum, told the writer how a certain caterpillar had long dodged him. He knew its habits in general way, but could not locate its exact hiding place, until he saw a bird fly by twice, each time with the green thing in its beak. So he followed the bird and found the worm. Showing that the collector must act quickly, Mr. Doll tells how he saw a rare female well up on a tree, turned to call his companion, and lo and behold a pair of wings shone at the foot of the tree. A bird had darted in and clipped the wings, eating the body. Of a certain species males were lacking, so he hung a captured female on a Texas tree and mimes, a hundred strong, rallied round, though they had been invisible to the collectors for the preceding month.

A Great Discovery.

Clayton, Tex., May 1st.—(Special)—That a genuine cure for Diabetes has been discovered is the opinion of Mr. J. H. Bailey of this place. Speaking of the matter, Mr. Bailey says: "I believe that if I had conformed strictly to a Diabetes diet I would now have been completely cured." "I have a genuine case of Diabetes. I have taken seven boxes of Dodd's Kidney Pills and am still taking them. They have helped me so much that I can now go up and work some. I believe that if I had conformed strictly to a Diabetes diet I would now have been completely cured." "Dodd's Kidney Pills have cured hundreds of cases of Diabetes and never one failed. It is an old saying that will cure Diabetes will cure any form of Kidney Disease and that's just exactly what Dodd's Kidney Pills do. They cure all kidney diseases from backache to Bright's Disease."

Stuck.

"How did he come out of that gine factory?"

"He didn't come out. He stayed in and got stuck."

Easy.

"Pride is like summer." "Why?" "It goes before a fall."

No fewer than 1,056,670 copies of the Scriptures were circulated in China last year, the actual sales being over a million copies.

COMING HOME AT LAST.

—New York World.

MOURN LOSS OF JEFFERSON. AFRID OF A LITTLE DIRT.

Veteran of the Stage Beloved by All Theater-Goers.

Joseph Jefferson was undoubtedly the best loved of American actors. The older generation of theater-goers remember him as the leading exponent of the art of acting. A new school of acting in which simplicity took the place of traditional stage art and mannerisms. The younger generation remembers him as Rip Van Winkle, a character which he made ever more attractive as he grew older.

In the late '50s Jefferson was associated with the most popular players of the time. Those who were with him on the stage and those who heard him tell the influence of his new method. It appeared to the most artistic, the most critical, as well as the humblest of playgoers.

This quality of Jefferson's playing attracted actors and people to him when he first played "Ass Trenchard" in 1858, as it did when he first played "Rip Van Winkle" seven or eight years later. On this point the recollections of Edwin Booth, Colman, Sothorn, Boucicault and Thymann as to first impression are not notably different from those of the unsophisticated enthusiast from the country or the playgoer first night of the city.

The art of Jefferson touched all, and certain modulations of voice and simple gestures and poses gave keenest pleasure every time they were remembered.

Only those whose memories cover forty years can understand what Jefferson's "Rip Van Winkle" meant to the generation that first heard it. It was like a revelation to the infrequent theater-goer, and did more to break down prejudice against the stage than any other play ever presented.

Clergymen and thousands of men and women who had never entered a theater counted it an event in their lives to see Jefferson in "Rip Van Winkle." Men did not know why they laughed and cried like children, and they did not care. There was a magic in the drama that had been there before, and Jefferson was the magician.

At first it was Jefferson the actor that the people loved. Then they came to love Jefferson the man. "Rip Van Winkle" was a means of revealing to old and young a personality as wholesome in its influence as any ever associated with the stage.

In summing up Jefferson's career it is enough for people to say "Rip Van Winkle." Called upon to give him rank among the great actors of the world, ninety-nine out of a hundred people would count it sufficient to say many times "Rip Van Winkle." And yet "Rip Van Winkle" would not mean so much to the world, could not hold first place in so many hearts, had it not been for the consummate actor, the genial spirit, and the simple human nature of the very human old man who died at Palm Beach on Sunday—Chicago Ocean.

Small Estates in England. It is considered strange that in England only one will disposing of as much as \$500,000,000 had been filed during the financial year ending March 31. The average number of such wills has been between five and six. Thus, in 1900 there were nine estates with a total of nearly \$100,000,000; in 1901, eight estates, total value more than \$50,000,000; in 1902, five estates, with the same total in 1903. Five estates were valued at \$40,000,000 and in 1900, twenty-five of the richest testators only one was under 60 years of age when he died; fourteen were over 70 years old and six more than 80 years. The average age was 74½ years. John Dawson, who left \$3,500,000, was 59 years old. The earl of Strathmore, aged 79 years, left \$4,751,000.

Helpful Millionaire. Coleman Dupont, the millionaire powder manufacturer of Wilmington, Del., rode down to his office on the Del. railroad, and the other morning, a conductor, a new man, was slow in collecting fares, and Mr. Dupont pulled the bell rope half a dozen times to let passengers on. At one corner an old woman with a market basket stood waiting. The millionaire lifted her basket on board, helped the old woman up the steps and paid her fare, smiling at her profuse thanks.

Secret of Being Beautiful. Women make a grave mistake when, in their desire for beauty, instead of making the best of what they possess they try to manufacture an artificial prettiness for themselves. Bonnet, the great Parisian beauty artist, used to tell his clients: "My dear madame, develop and do not invent, is the secret of becoming as beautiful as Providence ever intended that you may be. It is also the secret of being as beautiful as it is possible for you to be."—Exchange.

German Empire Awards Honors. The empress of Germany has sent fifty-one diplomas, each signed by herself to the women nurses and employees on North Brother Island, who distinguished themselves in the work of rescue at the time of the disaster to the Gen. Slocum last June.

Growth of Astor Estate. In 1830 John Jacob Astor was the only man in New York who was worth \$1,000,000. Now the entire estate is approaching the \$1,000,000,000 mark.

Woman Head of Quaker School. Mrs. John W. Cox, wife of a New York architect, is the first woman to become principal of the Chappaqua Quaker school in the United States.

Colombia Sends Good Man. Diego Mendonza, the newly appointed minister of Colombia to this country, is a prominent lawyer, a noted student of international law and political economy and a member of congress; he has been president of the Republican university, a professor in the leading colleges, a writer of fame and one of the recognized leaders of the liberal party. No man in Colombia to-day is so thoroughly familiar with the history of the diplomatic relations of his country with the United States.

Good Work Done by Birds. As an illustration of the value of land birds, a few interesting facts are suggestive. The night hawk, which catches insects on the wing, has an enormous stomach. Grasshoppers are an important article of its diet. The stomach of one night hawk was found to contain nearly a dozen grasshoppers, while another's stomach contained thirty-eight, mostly entire. Yet this useful bird is often killed for food and still often as a target for gun practice on the wing.

Great Musician Is Wealthy. Dr. Richard Strauss is considered to be the richest composer in Europe. His compositions have brought exceptionally high prices and he has also been extremely fortunate in the investment of his spare cash.

American Money in London. The London Graphic estimates that the "West End" has benefited in the amount of about \$500,000,000 by the marriage of British nobles to American heiresses.

Costly Fence to Inclose Deer. Payne Whitney is enclosing his estate at Manhasset, L. I., with an ornamental iron fence to cost \$75,000. It is being built for the purpose of making it possible to keep a herd of deer in safety within the inclosure.

MIKADO'S NERVES ARE STRONG.

Mine Explosion in No Way Ruffled Japan's Emperor.

Mutsuhito, the emperor of Japan, is about as stoical and impassive as an American Indian. When Prof. Milne, the greatest living seismologist, was studying earthquakes in the far east, he spent some years in the Tokio territory. In that island empire earthquakes occur two or three times a day sometimes. The professor's researches and experiments attracted the attention of the mikado, for whose pleasure a sham earthquake was arranged. On a waste piece of the ground the professor caused to be erected several buildings, beneath which were quantities of powerful explosives. The emperor pressed the button and the mines exploded with terrific force. His majesty remained calm and unperturbed. He had nothing of startled or blinched. Motionless and impassive, he watched the scene. Then, just on taking his leave, he uttered the one word, "Really!"

AMERICAN MINISTER TO KOREA.

Dr. Horace N. Allen, the American minister to Korea, is the foremost personality in that country today. Born in Delaware in 1858, he was graduated from Ohio Wesleyan university. He became a Presbyterian missionary and from China ventured into Korea, then the only remaining "hermit nation." Thus he was the first Protestant missionary in that country. The United States minister, Gen. Allen, made him physician to the legation. During an inspection, when all ailments

DR. HORACE N. ALLEN

led from Seoul, he stayed and attended some of the injured members of the royal family, battling with the necromancing court physicians so that he might save the wounded. His medical skill led the emperor to establish a royal hospital, with Dr. Allen in charge.

When himself fell sick, he was cured by Dr. Allen and the doctor was made court physician, a place of great influence, which he holds today. In 1899 he was made secretary of the United States legation at Seoul.

BANK ACCOUNT FOR BABIES.

Massachusetts Man Is No Friend of Race Suicide. George W. Davenport of Greenfield, Mass., bachelor and admirer of infants, has instituted an anti-race suicide movement, which means that every child born in Greenfield hereafter will receive from Mr. Davenport a savings bank account of fifty cents.

Mr. Davenport's main hope of inspiring interest in a plentiful crop of infants is an annual baby show to be held in May. The proceeds of the show he proposes to devote to boys' club work, thus encouraging children of tender years, though too old for baby show honors. President Roosevelt has approved Mr. Davenport's baby show plan and has signified his appreciation of the compliment of having his likeness on souvenir buttons made in the shape of the young Franklin county babies. The trump card of Mr. Davenport will be an attempt to obtain the presence of President Roosevelt at the show.

Girl Who Married Coachman. Mrs. James H. Haver, nee Cameron, who married a year ago to James Haver, a former coachman, became public a few days ago, is Andrew Carnegie's favorite niece.

Colombia Sends Good Man. Diego Mendonza, the newly appointed minister of Colombia to this country, is a prominent lawyer, a noted student of international law and political economy and a member of congress; he has been president of the Republican university, a professor in the leading colleges, a writer of fame and one of the recognized leaders of the liberal party. Double-Tracking the Santa Fe.

It would be a colossal undertaking to double track the Santa Fe all the way from Chicago to California and the Gulf of Mexico.

To seriously suggest it now would provoke a smile from men who know the cost of such a project. Yet it may happen some day, if business continues to increase as rapidly as in the last decade.

This plan of two tracks from the Great Lakes to Pacific Ocean does not necessarily imply that the tracks will be laid side by side. In many cases cut-offs will be made, thereby saving in mileage as well as train operation.

Using the term in its restricted sense, by the end of 1905 the Santa Fe will have more than 200 miles of double track in operation. Second tracks are now being built as follows: To finish the gap between Chicago and St. Louis, between several points in Missouri, aggregating 45 miles; to complete the line from St. Louis to Kansas City, and between Kansas City and St. Louis, and on both sides of Raton Mountain, in Colorado and New Mexico.
